

DALIAN BAOXIN INTERNATIONAL LOGISTICS CO., LTD.

Dalian Baoxin International Logistics Co., Ltd. is a member of Trawind Shipping Logistics, holding a national first-class international freight forwarding qualification and being rated as a AAAA-level logistics enterprise. The company is dedicated to providing customers with diversified door-to-door logistics solutions, including sea freight, land transportation, air freight, and railway services.

Baoxin Logistics has been deeply involved in international project logistics for nearly two decades. Through dedicated management, effective integration of advantageous resources, control of logistics costs, and reduction of risks at various stages and end-to-end tracking of business processes through information technology, the company ensures a efficient and quality service.

Baoxin has accumulated rich experience in the transportation of international EPC projects, including but not limited to power plants, steel mills, non-ferrous metallurgical plants, beneficiation plants, chemical plants, rail vehicles, and infrastructure. The company can provide strong support for the smooth implementation of various types of international logistics projects.
